COMMODORE'S COMMENTS:

Welcome to June. If we could only arrange better Wednesday night racing weather to be like it has for weekends...

Thank you to our staff and our MC, Vice-Commodore Jessica Strecker, for making the Commodore's festivities fantastic this year. Thank you also to Past-Commodore Tim Wallace for the blessing of the boats, and Jon Ledsworth for running and scoring the regatta. It's great to be able to honor all the Past-Commodores who volunteered their personal time to help run the club.

June is the beginning of the event season at MYC starting with new member orientation June 4. Check your email for the newsflashes on upcoming events. Thank you goes to the volunteers to the Social Committee volunteers for the planning. The Bombery Family will be stationed in slip 12 for the "Tour de Boats" June 18th.

Our kitchen staffing issues remain and staff continue to do the best they can. We appreciate your patience. Send your thanks to Samantha (Sam) and Josh who are keeping it going for us. Also, thank Kim whenever you can since she's not only our manager, but filling in as cook while she continues her staffing search.

I had some members grab me over the past month and give me comments and suggestions, and I appreciate it. Please feel free to let me know your thoughts or questions, whether it's at the club or to my email below, anytime.

Dock and Yard Committee Report:

Recently Dock and Yard completed the installation of the new weather station that was donated by the Bombery family. The weather station display can be found inside the clubhouse on the wall above the ice cream cooler.

Display inside the clubhouse

Installing the new weather station on

The best feature of the new weather station is you can access the current weather conditions at the club with any computer or phone. On a computer the following link will take you directly to the MYC personal weather station information:

<https://www.wunderground.com/dashboard/pws/KMIMUSKE154>

To access via a mobile phone, download the Weather Underground App and type KMIMUSKE154 in the “search locations” and select the KIMMUSKE154 Beechwood option. On your app you will be able to add this location as a favorite if you wish to immediately view the MYC weather conditions when opening the App.

Recently Tucker Marine completed the fabrication of the final floating container which will fill the current gap in the wave attenuator. MYC volunteers painted the container, and it is now ready to be splashed and installed. Should things go as planned this will happen in the next couple of weeks.

A sub-committee made up of MYC volunteers has been formed to research and provide options on the future of the Octagon Building and its roof

issues. In recent weeks the sub-committee has met with city officials, contractors, and others to review building and roof conditions and find the best path forward. Currently the sub-committee is seeking quotes for roof repair/replacement as the next step to presenting options.

Repairs to the north end of the pool deck concrete have also been completed to remove the trip hazard from uneven concrete. A section of the concrete that was cracked and had settled was moved back into place by concrete pump jacking. The areas that could not be moved back by concrete pump jacking were ground level using a mechanical concrete grinder.

Dock and Yard have its hands full of many projects and continues to take them on one at a time.

Interested in becoming involved with the Dock & Yard Committee? We meet the second Saturday of each month at 9am. Attendance may be in-person or virtual. Contact Jeff Blum at jeff.blum213@gmail.com. The next meeting is June 11th at 9am.

Thank you, Jeff Blum

Only this year in a much nicer, newer J24. She is currently at Torresen's getting bottom paint and waxing but look for them soon on the race course.
